## Profile

Professional automotive mechanic with the drive, knowledge, and experience required to diagnose and repair defects in many different mechanical systems, looking for an opportunity to advance my skill set.

## EXPERIENCE

### **Alpha Prime Racing, Mooreville, NC** – *Interior Mechanic*

January 2024 – April 2024

- Installation and removal of drivers' seat and seat belts, fire bottles and mounts, exhaust pipes, rear end housing, track bar, jack bolts, dash components, air duct hoses, cool boxes, side and quarter windows, cooling fans, side skirts, roof hooks and tv equipment, roof rails, shark fins, fuel cells, and assisted in loading the cars and taking them for dyno testing.

### **Ratchet's Garage, Mooreville, NC** – *Mechanic/Fabricator*

April 2023– December 2023

- Diagnose, remove, and repair engine and transmissions, cut into frames and body panels to repair rust damage by welding, electrical diagnosis and repair, replace suspension components, replace drum and disc brakes, run brake lines, and assist in picking up parts and fuel for vehicles from various locations throughout the community.

### **Whitford Country Club, Exton, PA** – *Mechanic*

May 2022 – October 2022

- Service lawn equipment, tractors, and heavy equipment by adjusting blade height, testing and repairing hydraulic systems, oil changes, replacing tires, rebuilding engines, and basic golf cart service as needed.

### **Mavis Discount Tire, Malvern, PA** – *Tire Technician*

August 2021 – May 2022

- Tire rotations, changes, mounting and balancing, replacing suspension and steering components, brake check and replacements, oil changes, fluid checks, check engine and ABS diagnosis, air filter and light replacement, and assisted with service advisor role.
